

Session 4 Tuesday and Wednesday Class Bios

Tuesday Classes

Enrollment LINK:<https://omella.com/8pszq>

Any Grey class is going on but has started in a different session and teacher approval would be needed to join. Grey classes will not be prorated.

1:10pm -2:10pm

Vex Go, Robotics (K-5th) 10 week class, prior vex or teacher approval needed

Teacher: Gloria Cornell

Cost: 100\$

Ready to level up your robotics skills? Vex GO: Advanced Concepts builds on your intro knowledge, diving deeper into coding and engineering principles. We'll explore advanced programming techniques in VEXcode, tackle more complex robot designs, and master problem-solving strategies for real-world challenges. Get ready to push your creativity and unlock the full potential of your robots!

Felting / Textiles (10 weeks) (2nd-12th)

Teacher Kirst Simpson

Cost: 110\$

A class focused on all the ways animal and plant fibers can be used to create Art and useful items. These classes will cover a variety of different methods such as free Fiber felting, aka needle felting, felting after spinning aka yarn felting, drop spindle spinning, hand carding, yarn dyeing, and crochet.

Washington History (13 weeks) (7-12th)

Teacher: Amy Mackie

Cost 150\$

Please note: This Class will run 3 weeks longer then all other Tuesday classes.

2:15pm -3:15pm

PE (K-5th)

Teacher: Amy Johnson

Cost 40\$

Calling all active kiddos! Get ready to jump, run, and throw. We'll build friendships while learning awesome skills like catching and teamwork. This class is all about having fun, burning energy, and learning more about each other and how God made us unique!

Crazy Concoctions (K-6)

Teacher: Mara Jacobsen

Cost 45 \$

Unleash your inner scientist in Crazy Concoctions! Ever wonder how to make your own slime, paint, sidewalk chalk, and more? In this messy and exciting class, we'll experiment with amazing mixtures to create awesome concoctions you can take home and share the fun! Get ready to get a little gooey, explore the science behind the creations, and unleash your creative side!

Recorder Fun (10 weeks) (3-8th)

Teacher: Catherine Behrenst

Cost: 125\$

Calling all music makers! Welcome to Intro to Recorder, a 10-week exploration of this timeless instrument. This fun and engaging class is perfect for beginners of all ages. A recorder is included for use in class and at-home practice, so you can keep the music going!

Our step-by-step lesson plan will build your skills week by week:

- Weeks 1-2: Learn proper posture, breath control, and basic finger placement to create clear, beautiful notes.
- Weeks 3-4: Explore the recorder's range, mastering the first five notes and playing simple melodies.
- Weeks 5-6: Delve into music theory basics like rhythm and reading notes, all while having fun.
- Weeks 7-8: Build confidence by playing duets and small ensembles with classmates.
- Weeks 9-10: Refine your skills, learn more advanced techniques, and prepare for a closing performance to showcase your musical journey!

Conversation Spanish (25 weeks) (5th-12th)

Teacher: Kirsti Simpson

Cost: 300\$

A year long immersive based class that teaches Spanish in a conversational capacity. Emphasis will be on pronunciation and fluency with the spoken word

3:20pm-4:20pm

LEGO Story Time

(K-5)

Teacher: Kirsti Simpson

Cost: 40\$

Bricks and stories collide in LEGO® Story Time! Each week, we'll journey into a new children's tale, then use our imaginations and LEGO® bricks to bring the characters and scenes to life. From building the Three Little Pigs' brick houses to crafting a spaceship for a lunar adventure, the possibilities are endless! This class is perfect for sparking creativity, fostering storytelling skills, and of course, having tons of LEGO® fun!

Eggmazing (3rd-12th)

Teacher: Shelly Tindall

Cost: 45\$

Crack open a world of culinary possibilities in our Eggcellent Egg Cooking Class! Explore the versatility of this amazing ingredient with 5 fun cooking methods. We'll master fluffy scrambled eggs, perfectly runny poached eggs for avocado toast, and creamy baked custards. Feeling adventurous? Learn the secrets of hard-boiled eggs for salads and deviled egg delights, and discover how to pan-fry sunny-side up eggs for a classic breakfast treat. Join us and become an egg-xpert in the kitchen!

Archery Tag (10 weeks) (4th-12th)

Teacher: Amy Johnson

Cost: 40\$

Calling all Robin Hoods in training! Unleash your inner archer in Archery Tag, a thrilling mix of dodgeball and archery. Gear up with safe, foam-tipped arrows and battle it out with friends in a fun and active environment. Master the art of aiming, strategize with your team, and dodge incoming arrows for ultimate victory! Join the fun and experience the adrenaline rush of Archery Tag!

Wednesday Session 4

Enrollment Link: <https://omella.com/2jkqo>

1:10pm - 2:10pm

PE (K-5th)

Teacher: Amy Johnson

Cost 40\$

Calling all active kiddos! Get ready to jump, run, and throw. We'll build friendships while learning awesome skills like catching and teamwork. This class is all about having fun, burning energy, and learning more about each other and how God made us unique!

Crafts Galore (2nd-7th)

Teacher Anna Kerr

Cost 45\$

Transform everyday treasures into handcrafted masterpieces in our 5-week Junk to Jewels Class! We'll unleash your creativity using a unique mix of materials like yarn, beads, jewelry findings, rocks, wood, pine cones, and even old jars. Each week brings a new project challenge: from weaving colorful yarn tapestries and crafting whimsical bead bracelets to designing one-of-a-kind pendants with rocks and wood slices. You'll learn new techniques like knotting, drilling, and decoupage, all while breathing new life into ordinary objects. Get ready to unleash your inner artist and walk away with beautiful, handcrafted treasures each week! All materials are included, so just bring your imagination!

Google Suite (Forms/Sheets) (5th-12th)

Chelsey Grunfelder

Cost 40\$

Class Bio coming asap.

2:15pm -3:15pm

Master Artist (K-5th)

Teacher: Anna Kerr

Cost: 40\$

Unleash your inner master in Masterpiece Makers! This 5-week art adventure takes you on a journey through the works of famous European artists. Each week, we'll explore a different iconic style, from the swirling brushstrokes of Van Gogh to the dreamlike landscapes of Dalí. We'll then create our own versions using a variety of techniques, like mimicking Monet's water lilies with pastels or capturing the bold lines of Picasso with charcoal. Get ready to learn about color theory, composition, and artistic movements, all while creating your own mini-masterpieces!

Dissection Lab (4th-12th)

Teacher: Madeline McCullough

Embark on a fascinating journey into animal anatomy with our 5-week Dissection Lab! This hands-on class will explore the internal workings of a variety of creatures, from the early development stages of a chick embryo to the complex systems of a frog. Prepare to dissect a fish, crayfish, earthworm, and locust, all carefully chosen to showcase diverse body plans. Through careful observation and guided dissection, you'll gain a deeper understanding of organ function, skeletal structure, and the incredible adaptations that allow each animal to thrive. This class is perfect for students curious about biology! Some dissections will be in groups, others individually.

Vex IQ, Robotics (10 week) (4th-9th) a prior vex class or teacher approval is needed

Teacher: Shannon Willamson

Cost: 100 \$

Take your VEX IQ skills to the next level! This class builds upon your intro knowledge, delving deeper into coding and engineering. We'll explore advanced VEXcode programming, tackle intricate robot designs, and master problem-solving for real-world tasks. Plus, learn how to create detailed Vex plans and robot journals to document your journey and future innovations

Latin 1 (28 weeks) (6th-12th)

Teacher: Joanie Tindall

Cost 310\$ (Sessions 1-5)

Dive into the exciting world of Latin with this engaging class! We'll use the award-winning Visual Latin 1 curriculum to bring the language to life with videos and activities. Additionally, we'll delve deeper into grammar concepts to solidify your understanding. To ensure you grasp everything, weekly 30-minute Zoom calls will provide opportunities for review and questions. Please note, this class requires purchasing the Visual Latin 1 curriculum..

*This class meets 1 HS language standard.

PE (13 weeks)

Teacher Amy Johnson

Cost 150\$

Gear up for an awesome PE experience! Join us for a blast of fun and fitness. We'll explore a variety of activities, while learning different muscle groups, building strength and coordination. But this class is more than just sweat - we'll celebrate teamwork and build a supportive community. Through all the fun, we'll also discover the amazing design of our bodies and point you to God, the incredible creator behind it all!

3:20pm- 4:20pm

Lego (K-5th)

Teacher: Anna Kerr

Cost 40\$

Bricks and stories collide in LEGO® Story Time! Each week, we'll journey into a new children's tale, then use our imaginations and LEGO® bricks to bring the characters and scenes to life. From building the Three Little Pigs' brick houses to crafting a spaceship for a lunar adventure, the possibilities are endless! This class is perfect for sparking creativity, fostering storytelling skills, and of course, having tons of LEGO® fun!

Eggtastic (3rd-12th)

Teacher: Shelly Tindall

Cost: 45\$

Crack open a world of culinary possibilities in our Eggccellent Egg Cooking Class! Explore the versatility of this amazing ingredient with 5 fun cooking methods. We'll master fluffy scrambled eggs, perfectly runny poached eggs for avocado toast, and creamy baked custards. Feeling adventurous? Learn the secrets of hard-boiled eggs for salads and deviled egg delights, and

discover how to pan-fry sunny-side up eggs for a classic breakfast treat. Join us and become an egg-xpert in the kitchen! (Sample recipe: Perfect Scrambled Eggs - included in class)

Vex V5 and IQ, Robotics, Stem (28 weeks) (6-12th)

Shannon Williamson

Cost 300\$

Calling all robot enthusiasts! Gear up for a year-long adventure in VEX Robotics! This combined VEX V5 and VEX IQ class will build your skills step-by-step, from basic construction to advanced coding. We'll tackle problem-solving challenges, learn to think like engineers, and most importantly, work together as a team to design and build a competition-worthy robot. Get ready to push your limits, have a blast, and prepare to move closer to getting to a competition level.

PE (5th-12)

Teacher: Amy Johnson

Cost 150\$ (13 weeks)

Gear up for an awesome PE experience! Join us for a blast of fun and fitness. We'll explore a variety of activities, while learning different muscle groups, building strength and coordination. But this class is more than just sweat - we'll celebrate teamwork and build a supportive community.
