

Session 3 Tuesday and Wednesday Class Bios

Tuesday Classes

Enrollment LINK:<https://omella.com/5gcnb>

Any Grey class is going on but has started in a different session and teacher approval would be needed to join. Grey classes will not be prorated.

1:10pm -2:10pm

Masterpiece Makers (K-5)

Teacher: Shelly Tindall

Cost 40\$

Unleash your inner master in Masterpiece Makers! This 5-week art adventure takes you on a journey through the works of famous European artists. Each week, we'll explore a different iconic style, from the swirling brushstrokes of Van Gogh to the dreamlike landscapes of Dalí. We'll then create our own versions using a variety of techniques, like mimicking Monet's water lilies with pastels or capturing the bold lines of Picasso with charcoal. Get ready to learn about color theory, composition, and artistic movements, all while creating your own mini-masterpieces!

Vex Go, Robotics (K-5th) 10 week class, prior vex or teacher approval needed

Teacher: Gloria Cornell

Cost: 100\$

Ready to level up your robotics skills? Vex GO: Advanced Concepts builds on your intro knowledge, diving deeper into coding and engineering principles. We'll explore advanced programming techniques in VEXcode, tackle more complex robot designs, and master problem-solving strategies for real-world challenges. Get ready to push your creativity and unlock the full potential of your robots!

Intro to Piano (10 weeks) (K-7th)

Teacher: Catherine Behrenst

Cost: 100\$

(Grades K-7th)

Students will learn the basic history of the piano and get a brief introduction to playing simple folk songs. No instrument or outside practice is required for this class.

Creative Writing (15 weeks) (5th-12th)

Teacher :Kristi Simpson

Cost: 175\$

This class will focus on the creation of a well structured short story. We will address how to Brainstorm, draft, revise and polish the stories. We will also work on word choice, punctuation, and grammar.

2:15pm -3:15pm

PE (K-5th)

Teacher: Amy Johnson

Cost 40\$

Calling all active kiddos! Get ready to jump, run, and throw. We'll build friendships while learning awesome skills like catching and teamwork. This class is all about having fun, burning energy, and learning more about each other and how God made us unique!

Older Student ART Reverse Charcoal (4-12th)

Teacher: Benjamin Tindall

Cost 45 dollars

Want to see light emerge from darkness? Take a dive into Reverse Charcoal Drawing, a 5-week course that flips traditional techniques on their head! We'll start by creating a dark background, then use erasers and blending tools to reveal stunning imagery. This unique method sharpens your shading skills and lets you create dramatic compositions. Perfect for beginners and experienced artists alike, join us for an exploration in light and shadow!

Bucket Drumming (15 weeks) (3rd-12th)

Teacher: Catherine Behrenst

Cost: 175\$

Be a part of the new percussion that's buckets of fun! Students will learn rhythm using a variety of styles and techniques on standard plastic buckets. Possible performance opportunities with this class.

Conversation Spanish (25 weeks) (5th-12th)

Teacher: Kirsti Simpson

Cost: 300\$

A year long immersive based class that teaches Spanish in a conversational capacity. Emphasis will be on pronunciation and fluency with the spoken word

3:20pm-4:20pm

Board Games (K-5)

Teacher: Kirsti Simpson

Cost: 40\$

Regardless of age, the goal is to get students interacting positively and having fun, all while developing and using math, social skills, strategic thinking, reading, and listening.

The younger students will spend their time engaged in card games, classics like Monopoly, Mole Rats in Space, and other cooperative games. While employing the above skills, older students will also be spending their time brushing up on their basic/advanced biology and chemistry and history/social studies by playing games.

Cooking, Let's Bake (3rd-12th)

Teacher: Shelly Tindall

Cost: 45\$

Calling all baking enthusiasts! In this fun and interactive class, you'll team up with classmates to design delicious treats to bake at home. (students will always get to try the creation of the day in class as well) Don't worry if you're new - we'll also bake samples in class whenever possible! From cupcakes and cream puffs to quiche and designer cookie dough, we'll explore a variety of

pastries and delve into the science behind baking. Learn how ingredients rise, why heat is essential, and the difference between wet and dry heat. Get ready to roll up your sleeves and satisfy your sweet (and savory) tooth!

Omnikin Ball (4th-12th)

Teacher: Amy Johnson

Cost: 40\$

Calling all teamwork champions! Omnikinball is a thrilling sport where three teams battle it out with a massive, 1.2-meter diameter ball! Strategy and cooperation are key as you work together to outsmart your opponents. The serving team aims the ball at one of the other two teams, who must catch it before it bounces. Get ready for bursts of agility, dives, and laughter in this unique and inclusive game!

Wednesday Session 2

Enrollment Link: <https://omella.com/1o8nb>

1:10pm - 2:10pm

PE (K-5th)

Teacher: Amy Johnson

Cost 40\$

Calling all active kiddos! Get ready to jump, run, and throw. We'll build friendships while learning awesome skills like catching and teamwork. This class is all about having fun, burning energy, and learning more about each other and how God made us unique!

Intro Guitar (15 weeks) (2nd-12th)

Teacher: Anna Kerr

Cost: 200\$

Sessions 1-3

Unleash your inner musician and learn to play your favorite worship songs on guitar or ukulele! This 15-week beginner class will guide you through chords, strumming patterns, and techniques

to bring your musicality to life. We'll focus on worship songs from various genres, allowing you to express your faith through music. Bring your own guitar or ukulele and get ready to make a joyful noise! A recital will wrap up the semester showcasing the students' new found skill.

Theater (15 weeks) (6th-12th)

Teacher: Michelle Whitaker

Cost 200\$

Calling all thespians (and those who dream of being one)! Unleash your inner performer in this exciting theater arts class for grades 6-12. We'll explore acting, voice, and movement, building confidence and teamwork. Throughout the semester, we'll delve into the world of theater, culminating in a thrilling final performance where you'll get to shine on stage!

* This class meets 1 semester High School Fine arts standard.

Latin 2 (28 weeks) (6th-12th)

Teacher Joanie Tindall

Cost 310\$

Sessions 1-5

Dive into the exciting world of Latin with this engaging class! We'll use the award-winning Visual Latin curriculum to bring the language to life with videos and activities. Additionally, we'll delve deeper into grammar concepts to solidify your understanding. To ensure you grasp everything, weekly 30-minute Zoom calls will provide opportunities for review and questions. Please note, this class requires purchasing the Visual Latin 2 curriculum.

*This class meets 1 HS language standards.

2:15pm -3:15pm

Rock the Rock Cycle, Ages 5-11

Teacher: Madeline McCullough

Cost: 40\$

Calling all rock detectives! Ever wondered what's under your feet? In Intro to Rock Science, we'll crack the code on rocks and minerals! We'll learn what a geologist does, get our hands on cool rocks from all over, and discover the difference between them. Get ready for fun experiments like hardness tests and scratch tests to learn about each rock's secrets. We'll even play a rockin' game to show off all our new knowledge!

Junkyard Wars (4th - 12th)

Vex IQ, Robotics (10 week) (4th-9th) a prior vex class or teacher approval is needed

Teacher: Shannon Willamson

Cost:100 \$

Take your VEX IQ skills to the next level! This class builds upon your intro knowledge, delving deeper into coding and engineering. We'll explore advanced VEXcode programming, tackle intricate robot designs, and master problem-solving for real-world tasks. Plus, learn how to create detailed Vex plans and robot journals to document your journey and future innovations

Latin 1 (28 weeks) (6th-12th)

Teacher: Joanie Tindall

Cost 310\$ (Sessions 1-5)

Dive into the exciting world of Latin with this engaging class! We'll use the award-winning Visual Latin 1 curriculum to bring the language to life with videos and activities. Additionally, we'll delve deeper into grammar concepts to solidify your understanding. To ensure you grasp everything, weekly 30-minute Zoom calls will provide opportunities for review and questions. Please note, this class requires purchasing the Visual Latin 1 curriculum..

*This class meets 1 HS language standard.

PE (15 weeks)

Teacher Amy Johnson

Cost 175\$

Gear up for an awesome PE experience! Join us for a blast of fun and fitness. We'll explore a variety of activities, while learning different muscle groups, building strength and coordination. But this class is more than just sweat - we'll celebrate teamwork and build a supportive community. Through all the fun, we'll also discover the amazing design of our bodies and point you to God, the incredible creator behind it all!

3:20pm- 4:20pm

Crazy Concoctions(K-5th)

Teacher: Anna Kerr

Cost 45\$

Unleash your inner explorer in Crazy Concoctions! Ever wonder how to make your own slime, paint, sidewalk chalk, and more? In this messy and exciting class, we'll experiment with

amazing mixtures to create awesome concoctions you can take home and share the fun! Get ready to get a little gooey, possibly messy, explore the science behind the creations, and unleash your creative side!

Let's Bake (3rd-12th)

Teacher: Shelly Tindall

Cost: 45\$

Calling all baking enthusiasts! In this fun and interactive class, you'll team up with classmates to design delicious treats to bake at home. (students will always get to try the creation of the day in class as well) Don't worry if you're new - we'll also bake samples in class whenever possible! From cupcakes and cream puffs to quiche and designer cookie dough, we'll explore a variety of pastries and delve into the science behind baking. Learn how ingredients rise, why heat is essential, and the difference between wet and dry heat. Get ready to roll up your sleeves and satisfy your sweet (and savory) tooth!

Vex V5 and IQ, Robotics, Stem (28 weeks) (6-12th)

Shannon Willamson

Cost 300\$

Calling all robot enthusiasts! Gear up for a year-long adventure in VEX Robotics! This combined VEX V5 and VEX IQ class will build your skills step-by-step, from basic construction to advanced coding. We'll tackle problem-solving challenges, learn to think like engineers, and most importantly, work together as a team to design and build a competition-worthy robot. Get ready to push your limits, have a blast, and prepare to move closer to getting to a competition level.

PE (5th-12)

Teacher: Amy Johnson

Cost 175\$ (15 weeks)

Gear up for an awesome PE experience! Join us for a blast of fun and fitness. We'll explore a variety of activities, while learning different muscle groups, building strength and coordination. But this class is more than just sweat - we'll celebrate teamwork and build a supportive community. Through all the fun, we'll also discover the amazing design of our bodies and point you to God, the incredible creator behind it all!
